Subject: CAP review
Attachments: Draft PCB CAP Findings for Advisory Committee (2)_MRM.docx

Hi Holly-

I haven't read the whole thing, but I did get through about page 86, and then through the Federal Regulations. I know my opinion on the regs was what you most wanted to see, so I decided to just get through it and pass on my comments.

I still plan to continue reading the rest of the document, and hopefully will finish by Monday.

You'll see that I said under the TSCA section that there are various regulatory levels for PCBs. I'm struggling with a way to write those succinctly. But I can write that up for you, if you are interested. I think your deadline is approaching, so I can write it up by Monday, if you'd like.

Take care,

Michelle Mullin
